

ROBG -123 Rapid intervention force to chemical, biological, radiological and nuclear emergencies on the Danube river

What's the goal?

To create within the structure of emergency authorities from the cross-border area, a joint rapid intervention force to CBRN emergencies on the Danube river.

What's the budget?

5,954,370.34 euro, out of which 5,061,214.79 euro ERDF

Target at the half of the implementation period: 412,730 euro

Who is doing it?

Lead partner: National Research-Development Institute for Materials Physics - NIMP (Romania)

Partners: General Inspectorate for Emergency Situation - Ministry of Internal Affairs (Romania) and Directorate General Fire safety and Civil Protection - Ministry of Interior (Bulgaria)

When is it happening?

Start date: 30.12.2016

End date: 29.06.2018

Duration: 18 months

Where is it happening?

Drobeta Turnu Severin in Romania

Belogradchik in Bulgaria

How is it going to happen?

- Providing identical mobile equipment to CBRNe police intervention units from both border sides for detection of hazardous materials
- Providing means for rapid deployment and efficient containment
- Providing interoperability at all levels between CBRNe response units from both sides of the border
- Initiating the establishment of RENFLAB, a regional environmental forensic laboratory to act as certifying analytical support body for the region
- Providing equipment for NIMP laboratory
- Information and publicity activities - press conferences, media events, website development

What will be the results (what's the contribution to the Programme)?

Programme outputs: 1 joint partnership in the field of joint early warning and emergency response

Programme results: raising the quality of response and recovery in case of CBRNe events in the CBC area

Project status (reflected in progress reports)
